

# Select Reproductions of Flora Illustrations

*Longleaf Pine*  
*Pinus palustris*

Commissioned to help us identify our state's plants, the drawings from the *Flora of Virginia* have come to enjoy a stardom all their own. Award-winning botanical artist Lara Call Gastinger, chief illustrator of the *Flora*, has completed 10 of her pen-and-ink drawings in her preferred medium, watercolor. To give a much-needed boost to creation of our Flora App, we are happy to offer fine-art reproductions of these works to our friends whose cumulative giving places them at the Great Laurel, Sweet Bay Magnolia, or White Oak level.

The reproductions are created in the *giclée* process, in which microscopic dots of ink are sprayed onto archival fine-art paper, resulting in a print that is virtually impossible to distinguish from the original. (The images shown here are not professional scans.) The prints have deckle edges, and each will be accompanied by a certificate of authenticity signed by the artist.

*Illustrations from the Flora of Virginia by Lara Call Gastinger*  
© The Foundation of the Flora of Virginia Project Inc.  
Completion of these works in watercolor was made possible in part by a grant from the Virginia Department of Forestry's Urban and Community Forestry program.

*American Hornbeam*  
*Carpinus caroliniana*

*Common Greenbrier*  
*Smilax rotundifolia*

*Indian Pipe*  
*Monotropa uniflora*

*Fruits of Hickories*  
*Carya spp.*
